Wiring and Inverters

100% Peace-of-Mind

24/7 Professional Monitoring

Proactive Service Dispatch

We'll Send a Technician if Your System
Requires Maintenance

Live Support and Diagnostics

From Our Seattle Operations Center

Included with Your New Solar System

Option to Renew Service (currently under \$13^{*}/mo.)

*Monthly subscription for typical solar system (capacity up to 15 kWdc.) For larger systems: add \$3/month per 5 kWdc of additional capacity.

How Does The Program Benefit You?

Professional Monitoring Around The Clock!

Our proprietary 24/7 remote monitoring systems are responsible for protecting hundreds of thousands of customers of our Fortune 1000 clients and now – they are available to you. We'll know if your system is underperforming, *often before you do.*

If your system requires maintenance, our team will notify you and dispatch a technician to resolve the issue!

Live Support | 100% Covered Maintenance

100% covered system maintenance for all system parts and components — including wiring and inverters.

Toll free unlimited access to our Seattle Operations Center providing live, real-time diagnostics of your system by solar experts.

Complimentary Quarterly Performance Reports, verifying the health of your system.

Energy, Guaranteed. Or We Pay You!

Every year – if your system generates less than 95% of forecasted energy, we pay you for annual energy loss even if you experienced a bout of bad weather! Homeowners are responsible for keeping panels clean and free of shading – but if you need to take action – we'll let you know!

Omnidian

Residential Solar Experts

The best customer service I've ever encountered in my 64+ years...

D. Scherer
Orinda, CA

It was an easy and smooth experience to get the help I needed. Thank you.

J. Rogers
Victorville, CA

Your representative was very professional and accurate! He explained everything in detail and did all necessary testing of our system. We were very impressed with his ability and his kindness!

J. Gallant
Townsend, MA
