

FREELANCE SOLAR INSTALLER ELECTRICIAN

Since 2002, PV Squared has provided custom solar energy solutions to businesses and homeowners in the Pioneer Valley and surrounding regions. We are driven by a commitment to building a healthier environment, strengthening the communities we serve, and demonstrating the value of worker-owned cooperatives as a generative business model.

The Freelance Solar Installer Electrician will work on our Installation Team on commercial and residential projects in western MA. This position is expected to run from early May through September, 2022. The Freelance Solar Installer Electrician will be responsible for ensuring our systems are installed to design specifications, meet quality expectations and are in compliance with all code regulations. This position will be directly involved in the installation of solar photovoltaic and storage systems and must be comfortable working on roofs. The ideal candidate will be a self-motivated, proactive communicator and problem solver with significant experience working in a dynamic and fast-paced team setting. This is a 40-hour per week position.

Minimum Requirements:

- State of Massachusetts Journeyman or Master Electrical license which is in good standing with the MA Board of State Examiners of Electricians
- Comfortable with referencing and implementing the National Electric Code
- Have a working knowledge of electrical systems, installation, components and practices
- Ability to troubleshoot and navigate basic to complex/large electrical systems.
- Strong technical problem solving and interpersonal skills
- Safe and comfortable working on construction sites and carrying weight at all heights (including roofs and ladders)
- Reliable transportation and clean driving history

Our Ideal Candidate:

- OSHA 10 construction Certification
- Experience in project planning
- Proactive communication skills, including the ability to interact with clients
- Focused and detail-oriented with a strong emphasis on quality craftsmanship and efficiency
- Passionate about solar energy, green building, and the cooperative business model
- Flexible thinker and team player who is willing to pitch in wherever needed

What We Offer:

- A collaborative, cooperative and democratic work environment
- \$50-56 per hour wage, depending on experience
- The potential to earn overtime compensation
- Mileage reimbursement
- Workers Compensation coverage
- Employee discount (with greater than 1,500 cumulative/historical hours worked)

We are looking for people who are passionate about making a positive impact and being part of a cooperative environment. As a worker-owned cooperative, we take pride in our work and we respect the investments our clients are making. We've built our reputation on strong word of mouth, quality craftsmanship, and outstanding client care. We are an anti-oppression organization committed to anti-racism and ongoing learning, reflection, and showing up for the communities in which we live and work. The collective sum of our individual differences contributes to the work we proudly produce and the collaborative approach we take.

PV Squared is an Equal Opportunity Employer and holds MA Elec. Lic. 3877 A1. PV Squared is committed to fostering a diverse, equitable, and inclusive company culture. Compensation based on experience and qualifications. To apply, please email your resume with "Freelance Electrician" in the subject line to careers@pvsquared.coop. We look forward to hearing from you.
